Charleville-Mézières — Ardennes — Grand Est

CALL FOR RESIDENCY 2024

The World Festival of Puppet Theaters of Charleville-Mézières, whose 22nd edition took place from September 16 to 24, 2023, is a major event for puppetry art and live performance. It takes place every two years for 10 days and welcomes nearly 100 companies from around the world (86 artistic teams in 2023). The program shows the contemporary creation in all its diversity of forms and contents, whether it is purely puppetry or associated with other arts, such as dance, plastic and digital arts or new magic. The notoriety of the event and its artistic quality make it an essential step as much for the puppeteers as for the persons in charge of programming present at each edition (400 persons in charge of programming in 2023). It is also very followed by a large crowd (155 000 persons in 2023) and the media.

As a major actor in the world of puppetry, the FMTM is also involved in the production of shows and the support of artistic creation. It accompanies the artists in the realization of their project, by offering in particular a support to the production and the reception in residence. The aim is to support the process of research in the field of puppetry arts, and making visible the presence of puppeteers in Charleville-Mézières, in order to install an artistic permanence of puppetry in the city.

Terms of reception
